**Comments concerning press articles**

The Management of P.P.A. S.A, prompted by articles in the daily and electronic Press, categorically denies the submission of any request from companies for the concession of operation and exploitation of car or cruise terminals. At the same time, it is clarified that there are no plans for the development of the above activities through concession.

Thus, the press articles referring to plans for the concession of the car or cruise terminals, are unfounded and far from truth and Management's business plans.
