

Piraeus 14/12/2022

**Subject: Clarifications (part 2) regarding the tender for the procurement of two (2) pcs of main-Hoist wire rope for quay crane SPP type (N°8) for the needs of PPA SA Container Terminal**

Interested parties are kindly requested to refer to all clarifications published provided by PPA S.A., regarding the questions received so far in relation to the subject tender

The said replies constitute an integral part of the Invitation.

**QUESTION 1:**

*"I have noted your answer as to item 3 (delivery Terms "DDP") that terms and conditions cannot be changed. Sorry to say, however, the requested Incoterm "DDP" can unfortunately not be fulfilled by the seller for the following reasons:*

- trading between EU located companies means that there are no customs duties to be paid when goods are transported/delivered from one EU country to another*
- also according to existing valid EU rules, EU located companies exchange their VAT ID's and doing so, no VAT tax is payable neither by one nor the other party.*

*Therefore, please be informed that our VAT ID is XXXXXXXX. Please provide us with yours.*

*For the above reasons, we would very much appreciate your revision of the delivery terms to be "DAP Piraeus port Container Terminal"?"*

**ANSWER 1:**

Please note that in case the winning bidder is from the EU, where no duties, no custom clearance is needed, then during award the term will be modified in order to satisfy the deliver terms reality which is DAP.
