SUBJECT: Further extension & new clarifications regarding the repetitive tender for the procurement of Festoon Tow Ropes for the needs of QCs 1-7 of PPA SA Container Terminal Use.

Interested parties are kindly requested to refer to all clarifications published provided by PPA, in relation to the subject tender.

Question 1:

" - Does the description "Flexible tension relief festoon tow rope Φ 19,8 Multicore" correspond to the tow ropes needed in QCs1-4? The provided drawing does not gives us enough information about the brand, model or type of festoon tow ropes. Are they from the same 0365 program? How many cords have to be offered? Is there a part number for it? If it is included in 0365 program, the diameter will also be 20 mm instead of the required 19,8. Please, give us more information about the cord we have to offer.

-Does the description "Flexible tension relief festoon tow rope Φ 18,5 single core" correspond to the tow ropes needed in QCs5-7? If this is the case, this is the part number 031989-2 for a 0365 program made of rubber. Could you, please, confirm? The diameter for this cord is 20 mm and not the 18,5mm requested. Please, let us know if 20 mm diameter can be offered.....".

Answer 1:

- 1.1. Correspond to the needs of QC 5-6-7 and they are from the program 0365.
- 1.2. Corresponds to the needs of QC 1-2-3-4 (ZPMC CRANES). No, Φ 20 mm cannot be offered.

Question 2:

"We are working on the offer for the procurement of Festoon tow ropes for the needs of QCs 1-7, but while some doubts are clarified, we would like to request a deadline extension for this offer of 1 additional week."

Answer 2:

Please be informed that the tender's submission deadline has been extended until **02.07.2021**.
