Subject: Clarification regarding the tender for the annual procurement of Tyres for all machinery and vehicles of Engineering Department.

Interested parties are kindly requested to refer to all clarifications published provided by PPA, regarding the questions received until 01/06/2022 in relation to the tender for the annual procurement of Tyres for all machinery and vehicles of Engineering Department

The said reply constitutes an integral part of the Call.

Question 1:

Related to the position 1 of the scope of supply, please confirm if the required size is 12-22.5 bias tires or 12R22.5 TBR radial tires?

Answer 1:

We confirm that the required size is **12R 22.5** TBR (Truck, Bus, Radial tyres)

Question 2:

Clarify if the Requirement imposed at the Note 5 is mandatory; as an approved PPA supplier, I am involved in trade activities of parts, including tires, however I do not have any particular activity related to the collection, disposal or alternative use of used tires; not to mention that the PD 109/2004 is subject to cancellation.

Answer 2:

According to the provisions of PD 109/2004 (article 5 par. 2 and article 2 par. 6) the producers and the importers of tires must participate to the Collective Alternative Management System Ecoelastika (or individual system). The dealers and final sellers of tires are obliged to sell only tires the importers of which participate in the System. Therefore, proof that your tires importer participates in the System must be submitted.

Please visit regularly PPA SA website in order to be promptly informed about the above mentioned tender.
